PROFESSIONAL SUMMARY

I am an entry-level software developer specializing in frontend development, using technologies like HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, Git/GitHub. I graduated from both CodeSpace Academy and TSIBA and am steadily building my workspace portfolio one commit at a time to improve and learn new skills with the hopes to grow into a full-stack developer.

WORK EXPERIENCE

Office assistant & Receptionist | *Ridon Communications (CBD, Cape Town)* Jul 2022 – Feb 2023

- Managed daily office routines, contributing to a professional environment by maintaining cleanliness and preparing morning refreshments.
- Packaged and labeled wines for clients and events, ensuring brand consistency and damage-free delivery.
- Completed time-sensitive personal and professional errands, including secure handling and delivery of high-value packages.
- Provided logistical support during company events and promotions, contributing to successful execution by working extended hours.
- Acted as the primary point of contact for deliveries and incoming calls, ensuring efficient daily operations and seamless communication.

Sales Assistant | *Geo by George (Somerset, Cape Town)* Apr 2019 – Sept 2019

EDUCATION

Software Development Programme | *CodeSpace Academy* 2025 – 205

Business Administration & Management / NQF5 | *TSIBA* 2021 – 2022

Matric | *Kensington High* 2017

PROJECTS

Kanban Board — [HTML, CSS, JavaScript] | [Live](#) · [Code](#)

Developed a web-based Kanban task board application, deployed live on Netlify for easy access and demonstration

- Implemented edit functionality for task cards, enabling users to move tasks between “To Do,” “In Progress,” and “Done” columns intuitively.
- Built a responsive UI that adapts to different screen sizes, ensuring usability on desktop and mobile devices

Space Tourism — [HTML, CSS, JavaScript] | [Live](#) · [Code](#)

Multit-page website utilizing JavaScript to allow users to toggle between pages displaying different content

- Developed a modular design system with reusable CSS components ensuring a consistent styling across my webpage, while optimizing maintainability and scalability.
- Implemented mobile-first design with CSS for seamless cross-device compatibility.

Mac Os Portfolio — [HTML, CSS, JavaScript, GSAP] | [Live](#) · [Code](#)

Designing and developing a Mac OS and IOS inspired portfolio using HTML, CSS, JavaScript and GSAP. The project is still a work in progress but please feel free to view the unique and immersive experience

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Bootstrap

Frameworks & Libraries: React, Tailwind CSS

Tools & Platforms: Git/GitHub, VS Code
